

NATD

National Association of Teachers of Dancing

APPOINTMENT OF NEW EXAMINERS

Applications are invited for New Examiners in all branches.

Being appointed as an Examiner is not an automatic process; the interview is an assessment of your overall commitment to the NATD, having the relevant qualifications is the starting point of being accepted for the role. Examiners are our ambassadors to our clients and have a duty to represent the association favourably at all times.

If you have two Fellowships in core subjects, Ballet, Ballroom, Classic Ballet, Classical Sequence, Freestyle, Latin American, Modern Stage, National Tap or Stage Branch Tap then you may apply.

If you have two Fellowships but neither are Freestyle as stated above then you will require at least an Associate qualification before your application can be considered.

Modern day examiners should now be multi branch qualified within their section so that they can be deployed anywhere. Your application will be strengthened if you have qualifications in the non-core genres that we offer. Although qualifications in these branches are not essential they are desirable to any subsequent appointment.

As most examination centres are now multi branch sessions then the more demand there will be for your services if you have the necessary qualifications.

If you are an entering teacher it always helps as the quality of your work will be known to us already.

If you have applied before then please write to us again for reconsideration.

Written applications should be sent to head office no later than 31st July 2017 together with an up to date CV and a brief resume of strengths and qualities that you would bring to the NATD as an Examiner.

Successful applicants will be asked to attend for interview on Sunday 3rd September.

The Interview Panel will be comprised of the President Annette Hufton, Immediate Past President Frances Dawson and myself the Chief Executive. The Interview panel will produce a short list for Council of those candidates they feel suitable for appointment as an "Appointee Examiner".

As an appointee examiner you would then be asked to "sit in" at actual examination sessions. After four favourable reports you would then be appointed as a "Probationer Examiner". Confirmation of full examiner status will take place after twelve months satisfactory service as a probationary examiner.

I look forward to hearing from you.

Kevin Page
Chief Executive
