

New Projects for All Ages

NATD Early Movers

Are you catering for the pre-school age range?

Help is on hand, we are pleased to offer a new programme aimed at giving you the confidence to introduce sessions within your school from birth upwards. This age group and their parents will benefit from the fun, laughter and the social interaction hosting these sessions can bring, whilst giving your school a new dimension. To find out about this new concept, keep an eye on the NATD website for details of online courses.

Our courses will include a presentation from a professional medical expert specifically related to working with this age group and there are 3 distinct developmental phases that this will cover. Teachers also have access to trademark NATD Early Movers logos to enable you to personalise your chosen merchandise. Templates for Health and Safety will also be available.

Because of the age group, it is envisaged that daytime classes would be popular and not impact on existing classes.

The experience of lockdown has taught us all just how valuable contact and wellbeing is for every individual at all ages with dance teachers uniquely placed to offer that support.

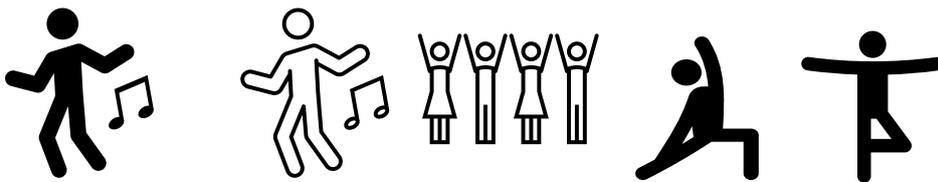

NATD Diamonds

Teachers are you looking for new inspiration to help boost your school, then why not consider running an **NATD Diamonds** session, could this be the opportunity you have been waiting for.

This is a new concept, using a range of genres, to cater for the 50 yr+ age group.

Conducting sessions could be a welcome addition to your current timetable to provide fun, fitness and wellbeing, targeted specifically at this age group. Intrigued to find out more, then lookout for details of our online courses.

Our courses will include a presentation from a professional medical expert specifically related to working with this age group together with access to trademark NATD DIAMOND logos to enable you to personalise your chosen merchandise. Templates for Health and Safety will also be available.

Because this initiative has a social dimension, it is envisaged that daytime classes would be popular and not impact on existing classes.

The experience of lockdown has taught us all just how valuable contact and wellbeing is for every individual at all ages with dance teachers uniquely placed to offer that support.
